Survey Questionnaire

Good Day!

We sincerely invite you to participate in this survey regarding the G&J Water Refilling Station Mobile Application. This questionnaire aims to assess the app's functionality, reliability, security, and overall satisfaction. Your responses will be kept strictly confidential and will be used solely for research and system improvement purposes.

This study is conducted by the following researchers:

Janine B. Marquez
Edison A. Tomelden
Erika F. Vocal

Thank you for your time and cooperation.

Instructions: *Please answer the questions below based on your experience using the water refilling station ordering and delivery mobile app. Your responses are confidential and will help improve app security and service quality. For each statement, please indicate your level of agreement using the scale below:*

Legend:

5 – Very Much Accepted
4 – Much Accepted
3 – Accepted
2 – Less Accepted
1 – Not accepted

Functionality	**5**	**4**	**3**	**2**	**1**
1. All buttons and features of the G&J app are working properly.					
2. The application allows order customization (quantity, schedule) works accurately.					
3. The app allows easy placement of water orders.					
4. Payment integration is seamless and secure.					

5. All the key features (product selection, order placement, and payment) function as expected.					
Reliability					
1. The app works consistently every time I use it.					
2. The app provides orders and data (history) saved accurately without errors.					
3. It recovers well from interruptions (poor connection).					
4. Features perform reliably across different devices/screens.					
5. Overall, the app provides reliable information.					
Security					
1. I feel safe providing my personal information in the app.					
2. The app adequately protects my personal data.					
3. I trust the app to handle transactions securely.					
4. The app has sufficient security features (passwords, authentication).					
5. The app clearly communicates security policies to users.					
Customer Satisfaction					
1. The app is easy to use and navigate.					
2. Ordering water through the app is convenient.					
3. Delivery service meets my expectations.					
4. The app performs reliably without errors.					
5. Overall, I am satisfied with the app.
